

Real Property Sales and Support Services - BCA

Average Discount offered from GSA Schedule Rates: (b) (4) (See Note 1)

Average Annual Escalation Rate: (b) (4)

Average Delta, or difference, between Government Site Rates and Contractor Site Rates: (b) (4) if on site more than 1 month.

BCA Notes on Pricing

Note 1 - In BCA's experience, many, if not most GSA projects are fixed fees. BCA pricing on those projects are likely to contain even lower rates.

Note 2 - Pricing for Appendix E must be very inexact due to the lack of detail provided. BCA's designated subcontractor performs this work for Treasury with blended pricing including fixed fee item, cost plus activities, and a percentage of sales. BCA proposes using the same pricing scenario for this project as approved by Treasury for the same services. The percentage of sales would be 4% for the gross sales volume for real property.

Note 3 - BCA will offer a 10% discount on its rates for projects where contractor is on site for more than 1 month.
